

Faculty of Management

The Faculty of Management (FOM), Tribhuvan University has its ultimate objective of educating students for professional pursuits in business, industry and government. It is further dedicated to contributing to an increase in the knowledge and understanding of business and public administration. FOM aims to develop a networking with management institutes in the country and abroad to exchange new knowledge, technology, and methods of achieving higher level efficiency in management of business and public entities. It also aims to continuously innovate and promote cost-effective, socially relevant, modern technology based educational programs in Nepal.

The FOM offers **dynamic and cutting edge multidisciplinary disciplines such as:** Bachelor of Business Administration (BBA), Bachelor of Information Management (BIM), Bachelor of Business Management (BBM), Bachelor of Public Administration (BPA), Bachelor of Hotel Management (BHM), Bachelor of Travel and Tourism Management (BTTM), Bachelor of Business Administration in Finance (BBA-F), Bachelor of Business Studies (BBS - 4 year annual system) , Post Graduate Diploma in Police Sciences (PGDPS), Master of Business Administration (MBA), Master of Business Administration in Information (MBA-IT), Master of Business Management (MBM), Master of Public Administration (MPA), Master of Hospitality Management (MHM), Master of Travel and Tourism Management (MTTM), Master of Business Administration in Global Leadership and Management (MBA-GLM), Master of Finance and Control (MFC), Master of Business Studies (MBS) and The FOM also offers Master of Philosophy in Management (M. Phil.) and doctoral program in management leading to a Degree of Doctor of Philosophy (Ph.D.)

FOM's GOALS

- Prepare professional managers capable of handling business in a dynamic global environment.
- Produce socially responsible and creative entrepreneurs capable of promoting business and industry for the socio-economic development of Nepal.
- Conduct research and management development programs for updating the knowledge and skill base of academics and practicing managers.
- Innovate and promote management programs catering to the various social and economic sectors of Nepal.
- Establish linkages with leading universities and management institutes abroad and collaborate with them in program development and implementation.

Bachelor of Business Studies (BBS)

Programme Objective

The objective of the BBS programme at the FOM is to develop students into competent managers for any sector of organized activity. The programme is based on the principle that graduates will spend a major portion of their life in a constantly changing environment. Therefore, the student should have an opportunity to obtain a broad knowledge of the concepts and reality-based skills underlying the operation and management of organizations.

Upon graduation, students should be equipped to function as a manager in business, industry and government. The graduate should also have a variety of career opportunities in different sectors of business including entrepreneurship and create much needed jobs for others.

The BBS programme specially attempts to:

1. Equip the students with the required conceptual knowledge of business and administration to develop a general management perspective in them.
2. Develop required attitudes, abilities and practical skill in students, which constitute a foundation for their growth into competent and responsible business managers.
3. Encourage entrepreneurial capabilities in students to make them effective change agents in the Nepalese society.
4. Develop necessary foundation for higher studies in management and thereafter take up careers in teaching, research and consultancy.

Curricular Structure

The FOM recognizes the need for both breadth and depth in the total academic pattern. Therefore, the curriculum for BBS degree comprises four separate and distinct course components:

1. A strong foundation allied areas of business such as language, economic analysis, legal environment and quantitative method to prepare graduates to understand, analyze and comprehend the management concepts, theories and practices.
2. Core business studies encompassing and integrating all functional areas to provide graduates with and appreciation of the diversity and inter-relationship of business and management issues.
3. The opportunity to concentrate in one area of specialization such as accounting, finance, human resources management and marketing in order to provide graduates with some degree of functional expertise.

Course Composition

Compulsory Courses

MGT 201: Business English

MGT 202: Business Statistics

MGT 207: Microeconomics for Business

MGT 204: Business Law

MGT 205: Business Communication

MGT 209: Macroeconomics for Business

Core Courses

MGT 211: Financial Accounting and Analysis

MGT 212: Cost and Management Accounting

MGT 213: Principles of Management

MGT 214: Fundamentals of Marketing

MGT 215: Fundamentals of Financial Management

MGT 223: Organizational Behavior & Human Resource Management

MGT 217: Business Environment and Strategy

MGT 224: Taxation in Nepal

MGT 225: Entrepreneurship

MGT 221: Business Research Methods

MGT 226: Foundation of Financial Systems

Concentration Area

(Three courses from any one of the following five functional areas)

Accounting

ACC 250: Accounting for Banking

ACC 251: Accounting for Business

ACC 252: Advanced Financial Accounting

ACC 255: Auditing

ACC 256: Advance Cost and Management Accounting

Finance

FIN 250: Fundamentals of Corporate Finance

FIN 251: Commercial Bank Management

FIN 255: Management of Financial Institutions

FIN 253: Fundamentals of Investment

FIN 254: Insurance and Risk Management

Marketing

- MKT 250: Fundamentals of Selling
- MKT 251: Customer Relationship Management
- MKT 252: Foreign Trade and Export Management in Nepal
- MKT 253: Fundamentals of Advertising
- MKT 254: Fundamentals of Services Marketing

Management

- MGT 251: International Business
- MGT 256: Small and Medium Enterprises
- MGT 257: Event Management
- MGT 258: Project Management
- MGT 259: Technology & Information Management

The First Year Programme

The purpose of the first year programme is to build a strong foundation in students to prepare them to comprehend the business concepts, theories and practices. The first year programme is organized into the following compulsory and core courses:

First Year (500)

MGT 201: Business English	100
MGT 202: Business Statistics	100
MGT 207 : Microeconomics for Business	100
MGT 211 : Financial Accounting and Analysis	100
MGT 213: Principles of Management	100

The Second Year Programme

The purpose of the second year programme is to provide basic concepts, tools and understanding of the foundation and core courses. The foundations courses are required to develop understand business practices. The core courses provide essentials of learning which are basic in the broad area of business studies. The second-year programme is therefore organized into the following core and compulsory courses:

Second Year (500)

MGT 205: Business Communication	100
MGT 209: Macroeconomics for Business	100
MGT 212: Cost and Management Accounting	100
MGT 223: Organizational Behavior & Human Resource Management	100
MGT 215: Fundamentals of Financial Management	100

The Third Year programme

The purpose of the third year programme is to provide basic concepts, tools and understanding of the fundamentals of business studies. The core courses provide essentials of learning which are basic to understand broader area of business studies. The third programme is therefore organized into the following core and compulsory courses:

Third Year (500)

MGT 204: Business Law	100
MGT 226 : Foundation of Financial Systems	100
MGT 217: Business Environment and Strategy	100
MGT 224 : Taxation in Nepal	100
MGT 214: Fundamentals of Marketing	100

The Fourth Year Programme

In fourth year, the students are encouraged to focus on a particular functional and concentration area of business studies. Building on the foundation laid in the first, second and third years, the principal mission of the fourth year twofold:

- 1) To enable the students to concentrate in one functional areas of business. FOM offers four stream of concentration courses:
 - a) Accounting
 - b) Finance
 - c) Management
 - d) Marketing
- 2) To provide opportunity to students to engage in research and final project presentation.

Fourth Year (500)

MGT 225: Entrepreneurship	100
Concentration I	100
Concentration II	100
Concentration III	100
MGT 221: Business Research Methods	50
MGT 401: Final Project	50

Eligibility Conditions for Admission

The candidate applying for admission to the BBS programme:

1. Must have successfully completed the 10+2 in business/ commerce or an equivalent course from a Higher Secondary School Board or from Tribhuvan University or from other University/ Board recognized by T.U
2. Must satisfy any other entry requirements or criteria as prescribed by the Faculty Board or the campus.

Final Project Work

The education of future manager will be incomplete without exposure to organizational reality. Therefore, the final project work is made an essential academic requirement for the fourth year students in all concentration courses. To write a project work students will undergo a field work and spend four weeks studying and learning from the organization during the time fixed by the campus/college. After the field work, the student will write a project report on the format prescribed by the FOM and submit it to the college/campus for evaluation. The student may also be asked to present the report to the general class and/ or faculty members. The evaluation of the report will be made by a team of external and internal examiners appointed by the by the Research committee of the respective campus/ college. The final viva-voce examination will be conducted by Research committee of the concerned campus/ college. After the completion of the project report will be submitted to the Office of Controller of examinations (Balkhu) for final scrutiny.

A student will have to pass the theoretical, practical and project work examinations separately in all the courses having theoretical, project work and or practical components.

Minimum General Requirements

The minimum general requirement for the 4 - year BBS programme are as follows:

1. An academic year will consist of a minimum of 150 teaching days excluding the days taken for admission and annual examinations.
2. The total instructional hours in an academic year will be 615 (150 day *4:10 hours a day).
3. A paper of 100 marks will have 150 lectures each of 50 minutes. However for practical works, extra class hours will be required as fixed by the Faculty Board.
4. There will be a minimum of five periods (i.e class hours) each teaching day. The campus/college running morning or evening shifts will also be required to meet this minimum class requirement.

Attendance, Evaluation and Grading System

The final evaluation of students is done through the annual examination conducted by the office of the Controller of Examinations, Tribhuvan University. However for qualifying to appear in the annual examinations, students must meet the following requirements:

- a) The student must have a minimum of 70 percent attendance of the classes actually held.
- b) No student will be allowed to appear in the second year final examinations without first appearing in the first year final examinations.

The grading system in the annual examinations is as follows:

Third Division	35 percent
Second Division	45 percent
First Division	60 percent
Distinction Division	75 percent

Methods of Instruction

The campuses offering the BBS programme should use the methods of instruction which help prepare the student for the realities of Nepalese business, industry and government in which he/she has to work. A combination of lecture, group discussions, problem- solving exercises, guest lectures, practical work, and project work will be used as approaches to learning. The campuses are also encouraged to use the case method of instruction whenever required and wherever possible.

Graduation Requirements

The BBS programme extends over four academic years and the BBS degree is awarded on its successful completion. All candidates for BBS degree must fulfill the following requirements:

1. The successful completion of 19 courses of 1950 marks and submit a final project report of 50 marks as prescribed with passing grades in all the courses.
2. The passing scores obtained in all theory and practical components of the courses separately.
3. Completion of courses for the fulfillment of BBS programme must occur within the time limit as prescribe by Tribhuvan University.

MGT: 201: Business English

Lecture hours: 150

Full Marks: 100

Pass Marks: 35

Course Description

This course, through spotlight on building business language competence and improving reading and writing skills, helps students become successful communicators in business situations. It makes use of three-pronged approach to enable them to hone their grammar and mechanics, and critical reading and writing skills.

Objective

The objective of this course is to help students use their general English skills in interdisciplinary contexts with lessons covering vocabulary and grammar exercises. It also aims to broaden students' literary readings in order to enrich their linguistic competence, comprehension ability, writing and presentational skills in business domain.

Course Outcome

The following objectives specify that the business students, at the conclusion of the course, should be able to:

- improve linguistic competence at lexical, structural/ grammatical levels
- comprehend literary texts and writing modes
- produce correct sentences, cohesive paragraphs and organized texts
- respond the literary and business readings critically and analytically
- boost competence towards global understanding thereby strengthening their confidence in using English in professional and social scenarios

Unit 1: Grammar and Writing Mechanics 15marks(22 Hrs.)

Sentences: Elements, Varieties, Patterns, Types, Faults; Nouns, Pronouns and Antecedents; Verbs,

Tenses, Subject-Verb Agreement; Modifier and Connector: Modifiers, Prepositions, Conjunctions;

Mechanics: Punctuation, Capitalization, Numbers

Unit 2: Using the Business language 5marks (7 Hrs.)

Fundamentals of language; Language and Meaning; Language, Society and Culture; Stylistic Features; Functions of Language Using Language Effectively; Strong Words; Coherent Paragraphs; Commonly Confused Words

Unit 3: Business Vocabulary 5 marks (7 Hrs.)

Importance of Business vocabulary; Vocabulary in Use; Business Specific Terminologies, Idioms and Expressions; Vocabulary in Communication Situations; Vocabularies in Writing Situation; Vocabularies in Speaking Situation; Ways to Improve Business Vocabulary

Unit 4: Business Communication Messages

5marks (7 Hrs.)

Written; Oral; Visual Messages; Electronic Messages; Nonverbal messages

Unit 5: Business Writing

15 marks (22 Hrs.)

Brochures: Guidelines and Instructions; Media Stories, Releases and Advertisements: Media Stories, News Reports; Articles and Stories; Broadcasting Stories; Press Releases; Effective Media Relations; Advertisements

Unit 6: Reading Strategies and Writing Process

25 marks (40 hrs.)

Reading to Write: Becoming a Critical Reader; Brent Staples. "Cutting and Pasting: A Senior Thesis"; Note-Making; Summarizing; Invention; Arrangement; Drafting and Revising; Editing and Proof Reading; Paragraph Writing.

Unit 7: Patterns of Writing

30 marks (45 Hrs.)

Narration: Sandra Cisneros: "Only Daughter"; Bonnie Smith-Yackel: "My Mother never Worked"; Description: Jhumpa Lahiri: "Rice"; Heather Rogers: "The Hidden Life of Garbage"; Cause and Effect: Stan Cox: "The Case against Air Conditioning"; Lawrence Otis Graham: "The 'Black Table' is still There" Comparison and Contrast: Bharati Mukherjee: "Two Ways to Belong in America"; Amy Chau: "Why Chinese Mothers are Superior" Definition: Judy Brandy: "I want a Wife"; Gayle Rosenwald Smith: "The Wife-Beater"; Argumentation: Alex Tabarrok: "The Meat Market"; Daniel Engber. "Let them Drink Water!"

Prescribed Books:

Kirszner, Laurie G. & Stephen R. Mandell (2012). *Patterns for College Writing: A Rhetorical Reader and Guide*. Boston: Bedford/St. Martin's.

Holmes, H.I. (2019). *English for Business Studies*. Kathmandu: Buddha Publications

Suggested:

Tickoo, Champa & Jaya Sasikumar (1979). *Writing with a Purpose*. New Delhi: Oxford.

Guffey, Mary Ellen & Carolyn M. Seefer (2011). *Business English*. Ohio: Cengage Learning.

Oxford Business English Dictionary for Learners of English. Oxford: OUP.

MGT 202: Business Statistics

Lecture Hours:150

Full Marks:100

Pass Marks:35

Course Objective

The basic objective of this course is to provide students an understanding of concepts of business statistics and to acquaint the students with necessary statistical and mathematical tools and techniques to be used in business decision-making processes.

Course Description

This course comprises introduction to statistics, classification and presentation of data, measures of central tendency, measures of dispersion, Skewness, kurtosis and moments, simple correlation and regression analysis, analysis of time series, index numbers, probability, sampling and estimation, quantitative analysis, determinant and matrix.

Learning outcomes

On the completion of this course, students will be able to:

- classify, present and analyze the business and management related data.
- interpret the data from the management perspectives.
- apply forecasting techniques in business and management.
- use quantitative techniques in different decision making environments.
- apply the tool for cause and effect relationship in managerial decision.

Course Details

Unit 1: Introduction to Statistics

5 LHs

Meaning, scope and limitation of statistics; Importance of statistics in business and management; Types and sources of data; Methods of collection of primary and secondary data; Precautions in using secondary data; and Problems of data collection.

Unit 2: Classification and Presentation of Data

5 LHs

Data classification: meaning, need, objectives and types of classification; Construction of frequency distribution and its principles; Presentation of data: tabular presentation, diagrammatic presentation: bar diagram, Pie diagram, graphic presentation: histogram, frequency polygon, frequency curve and ogive.

(Illustrations related to Business and Management).

Unit 3: Measures of Central Tendency

15 LHs

Mean: simple and weighted (Arithmetic Mean, Geometric Mean and Harmonic Mean);

Median; Partition values; Mode; Properties of averages; and Choice and general limitations of an average.

Unit 4: Measures of Dispersion

15 LHs

Absolute and Relative measures; Range; Quartile deviation; Standard deviation; Coefficient of variation; and Lorenz curve.

Unit 5: Skewness, Kurtosis and Moments

15 LHs

Meaning, objective and measurement of Skewness; Karl Pearson's and Bowley's methods; Five number summary; Box-Whisker Plot; Kurtosis and its measurement by Percentile method; Meaning of moments; Central and raw moments and their relationship; and Measurement of Skewness and Kurtosis by method of moment.

Unit 6: Simple Correlation and Regression Analysis

15 LHs

Karl Pearson's correlation coefficient including bi-variate frequency distribution; Coefficient of determination; Probable Error(P.E.); Spearman's rank correlation coefficient; Concept of linear and non-linear regression; Simple linear regression equations including bi-variate frequency distribution; and Properties of regression coefficients.

Unit 7: Analysis of Time Series

15 LHs

Meaning, need and components of time series; Measurement of trend: semi-average, moving average, method of least squares; Measurement of seasonal variation: method of simple average and ratio to moving average (only quarters).

Unit 8: Index Numbers

15 LHs

Meaning and types of Index Number; General rule and problems in construction of index number; Methods of constructing index numbers: simple and weighted (aggregative and average of price relative method), Laspeyre's index number, Paasche's index number, Fisher's ideal index number; and Time and factor reversal tests.
Cost of living index number (or Consumer's price index number): aggregative expenditure method and family budget method; and Base shifting and deflating.

Unit 9: Probability

10 LHs

Definition of probability; Addition and multiplication theorem; Application of combination rule in probability; and Conditional probability.

Unit 10: Sampling and Estimation

5 LHs

Meaning of sample and population; Census versus sampling; Sampling techniques; Concept of sampling distribution; Standard error; Estimation: estimator, concept of types of estimates: Point and Interval estimates.

Unit 11: Quantitative Analysis

15 LHs

Introduction to Quantitative Analysis; Application of management science: scientific approach to decision making; Decision making under the condition of uncertainty: maximax

(optimism), maximin(pessimism), minimax regret; Decision making under risk : Expected Profit (EP) Or Expected Monetary value (EMV), Expected Profit with perfect Information (EPPI), Expected Value of Perfect Information (EVPI); Linear Programming Problem (LPP): Problem formulation with two decision variables, graphical solution of maximization and minimization problems.

Unit 12: Determinant

10 LHs

Definition of determinant; Methods of finding the numerical values of determinant up to three order; Properties of determinant and its use to find the numerical values of determinants; and Cramer's rule to solve simultaneous equations up to three variables.

Unit 13: Matrix

10 LHs

Definition and types of Matrix; Addition, subtraction and multiplication of matrices; Cofactors; Transpose; Adjoint and inverse of a matrix; Matrix method to solve simultaneous equations up to three unknown variables.

Note: Illustrations and applications in all chapters should be based on Business and Management situation as far as possible.

Suggested Readings:

MGT 207: Microeconomics for Business

Level: Bachelor's
Nature of the Course: Compulsory
Program: BBS

Full Marks: 100
Pass Marks: 35
Lecture Hours: 150

Course Objectives

This course aims to enhance the understanding of microeconomic theories and their practical applications by developing students' skill in the application of theories in business decisions making.

Course Description

This course comprises introduction to microeconomics, market equilibrium and efficiency, elasticity of demand and supply, analysis of consumer's behaviour, theory of production, cost and revenue curves, product pricing theories and practices and factor pricing.

Learning Outcomes

By the completion of the course students will be able to:

- Explain the nature and scope of the microeconomics and business economics.
- Explain the concept of market equilibrium and efficiency and to analyze effect of change in market demand market supply to the market equilibrium and efficiency.
- Define and measure elasticity of demand and supply, their applications and uses in business decision making.
- Analyze the consumer's behaviour, derivation of the demand curve for normal goods by using both cardinal and ordinal approach.
- Explain the single variable and the multi-variable production functions and determination of the optimal combination of two inputs.
- Acquire the knowledge about the concept and nature of cost and revenue and to derive costs and revenue curves.
- Explain pricing of the products and the inputs under different market structures.

Course Details

Unit 1: Introduction ----- 15LHs

Microeconomics: meaning, scope, uses and limitations of microeconomics; Business economics: nature and scope; Basic concepts: production possibility curve, marginal analysis, incremental analysis, static and dynamic equilibrium analysis in microeconomics; and Ten principles of economics.

Unit 2: Market Equilibrium and Efficiency ----- 20 LHs

Demand function: types, determinants of demand, movement and shift in demand curve; Supply function: types, determinants of supply, movement and shift in supply curve; Market equilibrium; Effect of changes in demand and supply on market equilibrium; Effect of government policy (Tax, subsidy and price control) in market equilibrium; Concept of market efficiency; and Measuring market efficiency by consumer's surplus and producer's surplus.

Unit 3: Elasticity of Demand and Supply ----- 20 LHs

Price elasticity of demand: concept, degree and calculation (percentage/proportionate and average method); Point price elasticity of demand; Price elasticity and total expenditure; Income elasticity of

demand: concept, degree and calculation (percentage/proportionate and average method); Cross elasticity of demand: concept, degree and calculation (percentage/proportionate and average method);; Concept of advertisement elasticity of demand; and Uses of price, income, cross and advertisement elasticity of demand; and Price elasticity of supply: concept, degree and calculation (percentage/proportionate and average method)

Unit 4: Analysis of Consumer's Behavior ----- 20 LHs

Cardinal approach: assumptions, consumer's equilibrium, criticisms and derivation of demand curve; Ordinal approach: assumptions and properties of Indifference curve; Marginal rate of substitution; Price line; Consumer's equilibrium; Price effect and derivation of price consumption curve (normal goods and Giffen goods); Income effect and derivation of income consumption curve (normal and inferior goods); Substitution effect; Decomposition of price effect into income and substitution effect; and Derivation of demand curve for normal goods.

Unit 5: Theory of Production ----- 15 LHs

Production function: Short-run and Long run production functions; concept of Cobb-Douglas production function; Law of variable proportions; Isoquant: assumptions, marginal rate of technical substitution and properties; Iso-cost curve; Optimal employment of inputs; and Laws of return to scale.

Unit 6: Cost and Revenue Curves ----- 20 LHs

Cost function; Concept of costs: Implicit cost and explicit cost, accounting cost and economic cost, historical cost and replacement cost, separable cost and common cost, opportunity cost; Short-run costs: cost-output relationship; derivation of short run total cost curves and their relationship; derivation of short-run average and marginal cost curves and their relationship; Reason for the U-shaped of short run average cost curve; Relationship between AC and MC curves; Long-run costs: derivation of long run average and marginal cost curves; Reason for the U- shaped, L- shaped and continuously falling long run average cost curve; Economies of scale; and Concept of economies of scope. Revenue: revenue function; Revenue curves under perfect and imperfect competition market; Relation between average and marginal revenue curves; and Relationship between price elasticity of demand and revenue.

Unit 7: Product Pricing Theories and Practices ----- 25 LHs

Market structure: concept and characteristics; Profit maximization goal of firm; Price and output determination under perfect competition: short-run and long-run equilibrium; Derivation of short run supply curve of a firm and industry; Price and output determination under monopoly: short-run and long-run equilibrium; economic effects of monopoly. Price and output determination under monopolistic competition: short-run and long-run equilibrium, monopolistic firm's equilibrium under product variation and selling expenses. Concept and types of cartel; Pricing under joint profit maximization cartel; and Pricing practices: price discrimination, cost plus pricing, incremental cost pricing, administered pricing, export pricing, predatory pricing, skimming pricing and penetration pricing.

Unit 8: Theory of Factor Pricing ----- 15 LHs

Rent: modern theory of rent; Wages: marginal productivity theory of wages; Concept of collective bargaining; Minimum wages fixation; Wage differentials; Interest: Nominal and real interest rates; Interest rate differentials; Theories of interest: loanable funds theory of interest and liquidity preference theory of interest; Profit: economic profit and business profit; and Theories of profit: dynamic theory of profit and innovation theory of profit.

MGT 204: Business Law

Full Marks: 100
Pass Marks: 35

Lecture Hours: 150

Course Objectives

This course aims to impart the basic knowledge on legal aspects of business to the students so as to provide with basic understandings of the fundamental concept, principles and Legal frameworks of business to enhance their knowledge and managerial capabilities and apply in the practical field to resolve complex issues and for effective management of business operations. This course familiarizes students with the relevant provisions of various laws influencing business organization and to resolve legal issues in business.

Learning Outcomes

Upon successful completion of this course, students will be able to:

- Familiarize the concept and nature of law and business laws and sources of business law and its importance in Nepalese and global context;
- Understand fundamental concept, principles and Legal frameworks of Business laws;
- Have an understanding of the incorporation, operation and termination of company- voluntarily and compulsorily;
- Understand the system of dispute settlement (competent court system and alternative system - particularly Arbitration);
- Develop competencies to understand the problem and resolve the issues related to the business laws.

Course Description

This course contains various legal frameworks influencing business organizations in national and international context and foundational information about the Nepalese legal system, dispute resolution, and their impact on business as well as the major content of the Constitution of Nepal, State and Federal legal systems. The course covers the laws relating to General Contract and specific contracts, Company, Insolvency, Industrial Enterprises, Foreign Investment & Technology Transfer, Intellectual property, International trade, and dispute settlement systems (court and arbitration).

Course Details

Unit 1: Introduction to Law and Business Law

10 LHs

Concept, Nature and characteristic of law; Classification and sources of law; Meaning, characteristics and sources of Nepalese Business Law; Changing dimension of Nepalese Business Law and Constitutional provisions.

Unit 2: The Law of Contract and other Liabilities**30 LHs**

Meaning, Nature and definition of contract; Essential elements of valid contract; Meaning and Rules regarding offer; Revocation or lapse of offer; Meaning and rules regarding acceptance; Communication of offer and acceptance; Meaning and Rules regarding consideration; Concept and importance of free consent; Flaws of free consent and legal effects of contract caused by the flaws: coercion, undue influence, misrepresentation, fraud, mistake; Concept and importance of legality of objective and consideration- unlawful agreements and void agreement; Meaning and definition of contingent contract; Rules regarding contingent contract and distinguish from wagering agreement; Meaning, essentials, importance and types of performance of contract; Rules regarding performance of contract; Meaning of termination of contract; Modes of termination of contract; Meaning and types of breach of contract; Remedies for breach of contract; Major provisions of Contract and other Liabilities under the *Muluki Dewani Samhita, 2074*; Provisions of other obligations in brief- Lease Contract; Hire-purchase Contract; Quasi contract; Unjust Enrichment; Concept of Torts.

Unit 3: Contract of Bailment and Pledge**10 LHs**

Bailment: meaning and concept, rights and duties of Bailor and Bailee; Finder of lost goods (rights and duties of finder of lost goods); Meaning of pledge of pawn; Distinction between bailment and pledge; Right and duties of pawned and Pawnee; Pledge by non- owner.

Unit 4: Contract of Sale of Goods**15 LHs**

Meaning and nature of contract of sale of goods; Difference between sale and agreement to sell Condition and warranty; Doctrine of caveat emptor; Transfer of ownership; Transfer of title by non- owner; Rights and duties of unpaid seller; Buyer's remedies.

Unit 5: Contract of Agency**15 LHs**

Meaning and general rules of agency; Modes of creating agency; Types of agent; Rights and duties of agent; Personal Responsibility of agent; Right and duties of principal; Delegation of authority; Sub-agent and substituted agent; Termination of agency; Procedure of registration and effect of non-registration of agency in Nepal (under Agency Act, 2014).

Unit 6: Contract of Carriage**20 LHs**

Meaning and nature of contract of carriage; Characteristics of common carrier; Difference between common and private carrier; Rights, duties and liabilities of common carrier; Carriage by land; Carriage by Sea: contract of Affreightment, charter party and bill of lading; Incoterms- 2020; Carriage by Air.

Unit 7: Contract of Indemnity and Guarantee**10 LHs**

Meaning of contract of indemnity- Rights and duties of indemnifier and indemnity holder; Meaning and nature of contract of guarantee- Types of guarantee; Difference between

indemnity and guarantee; Rights, duties and liabilities of surety; discharge of surety from liability.

Unit 8: Law of Company and Insolvency

10 LHs

Meaning, nature and incorporation of company; Legal importance and formalities of annual general meetings; Minutes and resolutions of a company; Legal provision regarding BoD's report; Appointment and removal of an auditor; Insolvency of company; Nepalese law of insolvency and feature of Insolvency Act, 2063.

Unit 9: Dispute Settlement Systems

10 LHs

The Court System; The Civil Procedure in Nepal; Meaning, features and importance of arbitration; Appointment of arbitrators; Power and function of arbitrators; Disputes to be settled by arbitration; Major provisions of Nepal Arbitration Act, 2055.

Unit 10: Law of Intellectual property

20 LHs

Concept and Nature of Intellectual property rights; Copyrights Act, 2059 and its major provisions; Patent, Design and Trademark Act, 2022 and its major provisions; Trade Related Aspects of Intellectual Property Rights (TRIPs); Industrial Enterprises Act, 2074 and its major Provisions; Foreign Investment and Technology Transfer Act (FITTA), 2075 and its major provisions.

MGT 205: Business Communication

Full Marks: 100
Pass Marks: 35

Lecture Hours: 150

Course Description

This is BBS second year English courses in 4yr BBS system under the Faculty of Management, Tribhuvan university. This course allows students to explore the art of language communication skills required for general as well as professional domains . It helps students improve their reading and writing abilities in English in both social and professional interactions, and learn skills that they can apply to business negotiations, telephone conversations, written reports and emails, and professional presentations. This course seeks to enhance students' cross-cultural understanding and communicate in varied contexts. Other important concern of this course is to present a wide array of ideas from different spheres of human activity, which is of vital importance for success as an executive in management. Ideas are increasingly being considered an important resource just like men, machines materials and money, and the best business schools have taken note of the importance of creative thinking in the business world. Reading opinions of thoughtful people is important because we learn about other opinions and ideas in the process and they help shape our ideas and prepare us to become educated citizens who can think and form their own conclusions.

The course has two main components of equal weightage: (50% + 50%)

- I. Business Communication Skills**
- II. Discourse in Disciplines**

Course Objectives and Outcomes

After completing this course, students will be able to:

- read English texts written in various disciplines and understand different level of discourses
- express themselves in varied forms both in speech and writing
- write correctly and persuasively in present time standard English
- adapt content to a proposed context, audience and purpose
- understand and use appropriate style and tone in spoken as well as written texts
- be familiar with the language used in conducting meetings and prepare reports based on the discussion in the meetings
- write memos, letters, and other business communications

- apply formal structure and develop organization in writing proposal, reports, article etc.
- understand arguments and respond the arguments accordingly
 - use English pertinent to the level of audience and the purpose as the medium of communication
 - learn the art of using essential rhetorical techniques for developing effective communication
 - Evolve step by step disciplinary and interdisciplinary insights and ability to express in acceptable English

Course Contents

I. Business Communication Skills

I. The Communication Process

- Elements of Communication Process
- Methods of Communication
- The Writing Process
- Oral Communication Process
- Group Work and Collaboration Process
- Communication Structures and Systems
- Management Style and Communication
- Barriers of Business Communication

II. Business Communication

- Defining Business Communication
- Nature of Communication
- Historical Perspectives
- Purpose of Business Communication
- Functions of Business Communication
- Importance of Business Communication
- Components of Business Communication
- Types of Business Communication
- Principles of Effective Business Communication
- Challenges for Business Communication

III. Skills and Values in Business Communication

- The Importance of Communication Skills
- Identifying Communication Skill Sets
- Organizational Communication Skills
- Interpersonal Communication Skills
- Leadership Communication Skills
- Professionalism in Business Communication
- Elements of Professionalism
- Ethical Values
- Intercultural Sensitivities

IV. Electronic and Other Messages

- Memos
- Notices
- Letters
- Using Email
- Blogs
- Advertisements
- Press Release

V. Reports and Proposals

- Business Plan
- Reports
- Proposals

VI. Oral Communication

- Presentations and Speeches
- Telephone Calls
- Other Oral Communication Situations
- Enhancing Oral Communication
- Using Visual Aids
- Using Nonverbal Communication

VII. Visual Communication

- Pictures
- Charts
- Graphics

VIII. Employment Communication

- Planning and Conducting a Job Search
- Resumes and Cover Letters
- Job interview

II. Discourse in Disciplines

I. Culture and Society

1. New Nepal
2. Looking for a Rain God
3. Dover Beach
4. Shooting an Elephant
5. The Unknown Citizen
6. The Parrot in the Cage

II. Money and Management

1. Advertise Your Business
2. Eveline
3. The Company Man
4. Light My Lucky
5. The Ideal of Craftsmanship

III. Science and Environment

1. Religion and Science
2. The New Physics
3. Root Cellar
4. On Warts
5. The Etiquette of Freedom
6. The Rights of Animals

IV. Gender and Women

1. Professions for Women
2. The Use of Force
3. The Stronger
4. Here I Love You
5. The Kiss
6. Girl
7. Farewell
8. Popular Mechanics

V. Life, Death and Beyond

1. The Fly
2. Jest and Earnest
3. The Old Man at the Bridge
4. Once More to the Lake
5. The Hundredth Dove
6. The Lunatic

VI. Art and Philosophy

1. An Essay in Aesthetics
2. The Clock Tower
3. Beauty
4. From the Fountainhead to the Future
5. What I, Think I Am
6. All-Pervading Poetry
7. The Allegory of the Cave
8. Her First Ball
9. Not the Non-Existent

Teaching Method

The suggested method of teaching is of two fold : introduce the theme of the texts and lead students to the writing task i.e. guide the students to practice specific skills of language knowledge to produce their own writings. The recommended approach is to view the books not as mere language texts but to introduce students to many disciplines in order to expand their intellectual horizon. It is important to discuss what it means to be educated through the ideas of great thinkers and help students to become educated through thoughtful writings on different disciplines . The method, therefore, is to engage students in a dialogue about the questions and ideas raised in each

text by exploring through different perspectives and voices of others, and also sharing respectfully their own experiences and thoughts.

Evaluation

The examinations will cover the language skills including a range of tasks, students' ability to use English in a variety of contexts. Examinations will evaluate the students' ability to communicate effectively in English that is reading and writing activities and using appropriate writing style. Special credit will be given to originality of expression and depth of thinking,

MGT 209: Macroeconomics for Business

Full Marks: 100

Lecture hours: 150

Pass Marks: 35

Course Objectives:

Macroeconomics for Business aims to enhance understanding of macroeconomic principles and Nepalese macroeconomic situation to the Bachelor level students. It will help to inculcate the skills incorporating different macroeconomic domain in assessment of nature of business environment.

Course Description:

This course of macroeconomics makes students skilled to understand macroeconomic concepts, theories and contemporary macroeconomic issues pertinent in Nepal. This course comprises an introduction to macroeconomics, national income accounting, the classical theory of employment, Keynesian macroeconomics, IS-LM model, inflation, business cycles, monetary theory and policy, government finance and fiscal policy, the global economy and contemporary issues in references to Nepal.

Learning Outcomes:

By the completion of the course students will be able to:

- Explain the nature of macroeconomics and macroeconomic variables; explain the concepts and difficulties of measuring national income and calculate the national income by product, income and expenditure methods.
- Derive consumption function, saving function, investment function, investment multiplier, government expenditure multiplier, tax multiplier, foreign trade multiplier, IS curve and LM curve and determine the equilibrium level of income and employment in Classical, Keynesian and IS-LM model.
- Describe the concepts and causes of inflation, deflation, stagflation and business cycles; assess their effect and identify the measures of reducing their consequences in business.
- Describe the concept and structure of financial market, monetary policy, government finance, fiscal policy and fiscal federalism, in reference of Nepal and explore the effect of change in monetary policy and fiscal policy in equilibrium level of national income.
- Explain the effect of global and regional economy in Nepalese economy in reference to exchange rate, balance of payments, foreign direct investment and foreign employment and explain contemporary macroeconomic issues in Nepalese perspective.

Course Details:

Unit 1: INTRODUCTION TO MACROECONOMICS

LH 6

Macroeconomics: concepts, scope, uses and limitations; and Macroeconomic concepts: stock and flow variables; equilibrium and disequilibrium; static and dynamic equilibrium analysis.

Unit 2: NATIONAL INCOME ACCOUNTING

LH 20

Circular flow of income and expenditure in two sector, three sector and four sector economy; Different concepts of national income: GDP, NDP, GNP and NNP at market price and factor cost, personal income (PI), disposable personal income (DI), per capita income (PCI); Real GDP, nominal GDP and GDP deflator; Computation of national income: product method,

income method and expenditure method; and Difficulties in the measurement of national income. *Numerical Exercise*

Unit 3: CLASSICAL THEORY OF EMPLOYMENT

LH 6

Unemployment: concept and types; Say's law of market: concept, assumptions and implications; and Classical theory of employment: assumptions, components and criticisms.

Unit 4: KEYNESIAN MACROECONOMICS

LH 30

Principle of effective demand; Consumption function: concepts, psychological law of consumption, technical attributes and determinants; Saving function: concepts, technical attributes and determinants; Paradox of thrift; Investment function: concept and types of investment, marginal efficiency of capital, investment demand curve and determinants of investment; Income and output determination in the two-sector economy; Investment multiplier: concept, income generation process and leakages; Income and output determination in three sector and four sector economy; and Derivation of government expenditure multiplier; tax multiplier and foreign trade multiplier. *Numerical Exercise*

Unit 5: IS-LM Model of INCOME DETERMINATION

LH 7

Derivation of IS curve and product market equilibrium; Derivation of LM curve and money market equilibrium; General equilibrium in the product market and the money market; and Shifts in IS and LM curves (change in monetary and fiscal policies) and effects on equilibrium. *Numerical Exercise*

Unit 6: INFLATION AND BUSINESS CYCLES

LH 18

Inflation: concepts and types; Measurement of inflation through consumer's price index (CPI) and GDP deflator; Demand-pull inflation and cost-push inflation; Concept of core inflation; Effects of inflation; Anti-inflationary measures; Inflation and unemployment: Phillips curve and stagflation; Deflation: concept and causes; Nature, causes and effect of inflation in Nepal; Business cycles: concepts, characteristics and phases; and Measures to control business cycles. *Numerical Exercise*

Unit 7: MONETARY THEORY

LH 16

Money supply: concepts and determinants; Money market and capital market: concepts and functions; Structure of financial market in Nepal; Monetary Policy: concepts, types, objectives and instruments; and Features of current monetary policy of Nepal.

Unit 8: GOVERNMENT FINANCE**LH 15**

Government budget: Concepts and components; Deficit financing: concept, objectives and methods; Sources of government revenue in Nepal, Government expenditure of Nepal; Features of current government budget of Nepal; Fiscal policy: concepts, types, instruments and objectives; and Fiscal federalism: concepts, components and Nepalese practice.

Unit 9: GLOBAL ECONOMY**LH 17**

Global economy: concept and current trends; Globalization: concepts, drivers, benefits and defects; Regional integration and trading blocs: concepts and role; Issues of Nepali foreign trade; Exchange rate: concept and types; Determination of equilibrium exchange rate under fixed and flexible exchange rate system; Balance of payments: concept and BOP accounts; Foreign direct investment: concepts, benefits, defects and current status of Nepal; and Foreign employment: benefits, defects and current status of Nepal.

Unit 10: CONTEMPORARY MACROECONOMICS ISSUES IN NEPALESE PERSPECTIVES LH 15

Macroeconomic indicators of Nepal; Privatization and liberalization: concepts, benefits and defects; Economic growth and development: concepts and components; Sources of economic growth; Poverty: concepts, types, causes and remedies; Economic inequality: concepts, causes and remedies; Public private partnership: concepts, importance and Nepalese practice; and Financial inclusion: concepts, determinants and current Nepalese status.

MGT 211: Financial Accounting and Analysis

Nature of course: Core
LHs: 150

Full Marks: 100
Pass Marks: 35

Course Objectives

The main objective of this course is to provide in-depth knowledge and understanding of basic principles, concept and practices of financial accounting. This course also aims to develop students' understanding on business transactions, record such transactions in an accounting system and enable them to prepare and analyze the basic financial statements.

Course Description

This course contains conceptual and theoretical foundation of financial accounting; processing and recording business transactions; accrual accounting concept; adjusting entries, closing entries; preparation of basic financial statements like income statement, statement of retained earnings, balance sheet, value added statement and cash flow statement; and their analysis.

Course Details

Unit I: Basic Understanding of Financial Accounting

8 LHs

Forms of business entities: sole proprietorship, partnership and corporate entities; Cyclical nature of business: financial cycle and operating cycle; Financial accounting : concept, features objectives and scope ; Book-keeping, accounting and accountancy; Nature of accounting; Qualitative features of accounting information; Users and uses of accounting information: internal users and external users; Limitations of financial accounting; Bases of accounting: cash and accrual bases of accounting; and Accounting and other disciplines.

Unit 2: Conceptual Framework of Accounting

8 LHs

GAAP and its features; Basic accounting concepts: the business entity concept, the monetary concept, the going concern concept, the cost concept, the dual aspect concept, the accounting period concept, the realization concept, the accrual concept and the matching concept; Accounting concepts Vs. Accounting conventions; Basic accounting conventions: consistency, conservatism, materiality and full disclosure; Accounting standards: meaning, nature, need and significance of accounting standards; NAS, IAS, NFRS, IFRS; Classification of Accounting standards; Ethics in accounting.

Unit 3: Accounting Process

23 LHs

Accounting events of business: concept and types; Source documents: concept, types and role in recording transactions; Accounting equation for analyzing the transactions; Debit and credit and their rules; Recording process of accounting events: journal, sub-division of journal, ledger, and trial balance.

Unit 4: Accrual Basis of Accounting**10 LHs**

Accrual versus cash basis of accounting; Adjusting entries: concept and types of adjusting entries; Adjusted trial balance; Closing entries: concept and types of closing entries.

Unit 5: Accounting for Inventories and Cost of Goods Sold**8 LHs**

Concept, nature and cost of inventory; Cost of goods sold model; Inventory valuation and income measurement: periodic and perpetual system; Methods of inventory valuation in periodic and perpetual system; Inventory estimation: retail inventory method and gross profit method; Effect of inventory valuation on cost of goods sold and its disclosure; Analyzing the management of inventory: inventory turnover ratio and number of days' sales in inventory.

Unit 6: Accounting for Cash and Internal Control**6 LHs**

Concept and nature of cash ; Internal control and principles of internal control activities; Cash receipts and disbursement control; Preparation of bank reconciliation statement; adjusting entries; petty cash fund; Effect of cash in balance sheet; Internal control procedures.

Unit 7: Accounting for Receivables**6 LHs**

Concept, nature and types of receivables; Recognition and valuation of accounts receivables: presentation of accounts receivable in balance sheet, Recognition and valuation of notes receivables; Balance sheet presentation of notes receivable; Analyzing the management of accounts receivable: Accounts receivable turnover ratio and days' sales outstanding.

Unit 8: Accounting for Current Liabilities and Contingencies**6 LHs**

Concept and nature of current liabilities; types of current liabilities: Accounts payable, notes payable, tax payable, other accrued liabilities (accrued expenses and unearned income) and current maturities of long-term debt; Recognition and valuation of accounts payable and notes payable; Balance sheet presentation of accounts and notes payable; Concept of contingent liabilities; Accounting entries of product warranty and guarantees; Analyzing the management of current liabilities.

Unit 9: Accounting for Long-Lived Assets**10 LHs**

Concept, features and types of long lived assets; Acquisition cost of tangible long lived assets; Depreciation of tangible long lived assets: Straight-line method, diminishing balance method, unit of activity method and depreciation fund method; Choice of depreciation method; Disposal of long lived assets; Impact of depreciation on profit measurement; Capital versus Revenue expenditure; Effect of long lived assets in balance sheet; Analyzing the management of long lived assets.

Unit 10: Accounting for Long Term Liabilities**8 LHs**

Concept of long term liabilities; Concept, features and types of debentures or bonds ; Accounting entries for issuance and retirement of debentures or bonds; Balance sheet presentation of debentures or bonds;

Concept and types of leases: Acquisition of capital lease; depreciation of leased asset; amortization of lease obligation; balance sheet presentation of lease obligation; analyzing the management of long-term debt.

Unit 11: Accounting for Shareholders' Equity**7 LHs**

Concept of shareholder's equity; Components of shareholders equity: Common share, preference share, additional paid-in capital, and retained earnings; Balance sheet presentation of shareholder's equity; Accounting entries for issuance of share; Accounting entries for treasury share or stock;

Accounting entries for cash and stock dividend, stock split and its effect on shareholder's equity; Analyzing the management of shareholders' equity.

Unit 12: Basic Financial Statements

20 LHs

Financial statements-means of communicating accounting information: concept, purpose, types and relationship;

Income statement: concept and types of income statement, components of an income statement, preparation of single step and multi step income statement;

Statement of retained earnings: concept, components and preparation of retained earnings statement;

Statement of financial position or balance-sheet: concept, purpose, components and preparation of classified statement of financial position or balance sheet;

Statement of changes in owners' equity: concept, components and preparation of statement of changes in owners' equity.

(Disclosure required for financial statements as per Nepal Company Act and NFRS).

Unit 13: Cash Flow Statement

12 LHs

Meaning, objectives and importance of cash flow statement; Contents of cash flow statement; preparation of cash flow statement using trail balance of a year; Preparation of cash flow statement using balance-sheets of two dates under direct and indirect method.

Unit 14: Value Added Statement

6 LHs

Value added: concept and its application; Value added statement: concept, contents and advantages; Preparation of value added statement showing value added generated and applied.

Unit 15: Analysis of Financial Statement

12 LHs

Meaning, objectives, need and importance of financial statement analysis; Types of financial statement analysis: Horizontal and vertical analysis, comparative and common size statement analysis and their application.

Ratio analysis: concept, uses, importance and limitations of ratio analysis; Types, computations and interpretations of: liquidity (current ratio and quick ratio), capital structure (debt-equity ratio, debt to total capital ratio, interest coverage ratio and debt coverage ratio), efficiency (stock turnover ratio, receivable turnover ratio including collection period, payable turnover ratio including payable period, fixed assets turnover ratio, total assets turnover ratio, capital employed turnover ratio), profitability (gross profit ratio, net profit ratio, operating ratio, return on equity, return on total assets and return on common shareholders equity) and earning evaluation ratios (EPS, DPS and price earning ratio) for evaluating the financial performance of the business.

MGT 212: Cost and Management Accounting

Full Marks: 100

Pass Marks: 35

Lecture Hours: 150

Course Objectives

The objectives of the course are to provide the students with in-depth knowledge of cost and management accounting in order to enable them to develop, arrange and classify cost information required for decision making for maximizing the profit and reducing / eliminating losses. The course further aims at developing a sound base for higher study in accounting besides in practical knowledge required by the middle level managers to handle cost information independently.

Course Description

This course contains conceptual and theoretical foundation of cost and management accounting ; It also comprises classification and segregation of cost, accounting for material and labour, allocation, apportionment and absorption of overhead cost, costing in different situations such as service costing, job and contract costing, process costing etc., income statement under variable and absorption costing techniques, standard costing system with material and labour cost variance, flexible budgeting under different levels of activities, overhead cost variance,

Course Details

Unit 1: Conceptual Foundation

15 LHs

Cost accounting and cost accountancy; Meaning, objectives, importance, scope, advantages and limitations of cost and management accounting; Limitations of financial accounting; Similarities and dissimilarities in financial, cost and management accounting

Concept, importance and classification of cost: basic concept of cost, expense, loss cost center, profit center and cost unit, cost classification: based on function, identification, behavior, controllability, decision making, time of recording, monetary expression, planning and control, period and product cost;

Cost segregation and estimation: concept and methods of cost segregation: i) Two point method ii) Least square method and iii) Estimation of cost

Unit 2: Accounting for Materials

12 LHs

Materials/Inventory: Concept, reasons and objectives for holding material/inventory. Inventory control: Meaning, importance and techniques; Economic order quantity: concept, techniques, formula, graphic and trial & error approaches-considering discount under certainty condition; Re-order, maximum, minimum, average stock levels, danger level and safety stock; Concept and techniques of perpetual inventory system; Stock control through ABC analysis and just in time inventory: concept, advantages and limitations; Material productivity and Inventory or material turnover.

Unit 3: Accounting for Labour Cost**15 LHs**

Labour Cost: Concept and need for control of labour cost; Remuneration without premium plan: Features of good remuneration system, time and piece wage system; Remuneration with premium Plan: Features of premium plan, premium bonus scheme-Halsey and Rowan Plan, Taylor's Differential Piece Rate, Gant's Task and Bonus Plan, Group Bonus Scheme: Priestman's and Scalon's Plan

Labour Turnover: Concept, causes and effects, cost of labour turnover: preventive and replacement cost and calculations, labour turnover ratios.

Unit 4: Accounting for Overhead Cost:**8 LHs**

Overhead Cost: Meaning, features, importance and classification; Allocation, apportionment and absorption of overhead: meaning and importance; Apportionment and absorption of overhead cost based on volume, direct labour hours and machine hours; Concept, importance, features, elements of Activity Based Costing, ABC vs Traditional Costing, procedures of absorption of overhead cost under ABC technique.

Unit 5: Costing in Different Situations**42 LHS**

Service Costing: Concept, features and scope of service costing; Preparation of cost sheet for transport service for passenger, hospital, hotel and restaurant services, limitations of service costing.

Job Order Costing: Concept and features; measuring direct material, direct labour and manufacturing overhead cost; Accounting for job order: Preparation of job order cost sheet showing non-manufacturing costs & determination of cost of goods manufactured, cost of goods sold and unit cost.

Batch Costing: Concept and features; Determination of Economic Batch Quantity (EBQ).

Contract Costing: Concept and features; Similarities and dissimilarities in job and contract costing; Contract costing procedures: preparation of contract account in the case of incomplete, near to completion and complete contract, work certified and work uncertified, contractee's account, work in progress account and balance sheet; Cost plus contract; Escalation and de-escalation clauses.

Process Costing: Concept, features and application; comparison of job costing and process costing; preparation of process accounts with/without beginning and ending work-in-progress inventory, partial and total transfer of output to next process, accounting for process loss/gain: normal and abnormal loss, abnormal effective/gain and computation of unit costs, and treatment of spoilage, wastage, scrap and defective unit; accounting for inter process profit, reserve for unrealized profit.

Joint Product and By Product Costing: Concept, features and objectives of joint and by-product, difference between joint product, main product and by-product; Apportionment of joint costs under unit of output and revenue basis; Accounting for joint and by-products.

Unit 6: Accounting for Profit Planning**20 LHs**

Absorption Costing: Concept, features, importance and preparation of income statement under absorption costing, treatment of normal capacity and fixed manufacturing overhead rate, treatment of opening and closing stock, over and under absorption of fixed manufacturing overhead and adjustment and limitations of absorption costing.

Variable Costing: Concept, features, use and importance preparation of income statement under variable costing, treatment of manufacturing overheads, treatment of opening and closing stock limitations and treatment of other expenses; limitations of variable costing.

Reconciliation of profit or loss between absorption and variable costing techniques showing the causes of differences.

Cost Volume Profit Analysis: Meaning, importance; assumptions and limitations of CVP analysis; Contribution margin and ratio, profit volume ratio; Break even analysis using contribution margin, algebraic and graphic approaches; Break-even-analysis: under various situations: changes on selling price, fixed cost, variable cost, under step fixed cost, multi-products situations, margin of safety and determination of selling price to realize desired profit ; Advantages and limitations of break even analysis.

Unit 7: Cost Accounting for Planning and Control**30 LHs**

Standard Costing: Concept of standard cost and standard costing, features, application, advantages and limitations; Difference between standard and budget.

Variance Analysis; Material variances: Concept and calculation of cost, price, usage, mix and yield variances; Labour variances: Concept and calculation of cost, efficiency, rate, mix, idle time and yield variances.

Overhead Cost Variance: Concept and calculation of capacity, efficiency and spending variances.

Budget: concept, features and importance of budget; budget and budgetary control; Types of budget: sales budget, production budget, material budget & merchandise purchase budget, labour budget, manufacturing overhead budget, cost of goods manufactured budget, selling/distribution & administrative expenses budget and cost of goods sold budget.

Fixed and Flexible Budgeting: Concept and importance of fixed and flexible budgets; Difference between fixed and flexible budgets; Flexible budgeting for overhead cost control on activity levels and budget allowance for actual level attained.

Unit 8: Cost Reduction**8 LHs**

Cost Reduction and Cost Control: Cost reduction-pre-requisites, techniques, steps, responsibility and limitations; Value engineering (analysis): Concept, advantages, tools and techniques for cost reduction; Value analysis: Concept, objectives, importance, advantages and techniques of value analysis.

MGT 213: Principles of Management

Level: Bachelor of Business Studies

Year: First

Nature of the Course: Core

Full Marks: 100

Pass Marks: 35

Lecture hours: 150

Course Objectives

This course aims to impart the basic management knowledge and skills to the students so as to enhance their managerial capabilities and enable them to apply in the practical field. The course provides a comprehensive knowledge to students about organization and help them understand the major functions, principles, and techniques of management.

Learning Outcomes

Upon successful completion of this course, students will be able to:

- Understand what management is and why it is important
- Have developed a working knowledge of fundamental terminology and frameworks in the functions of management
- Be able to identify and apply appropriate management techniques for managing contemporary organizations
- Have an understanding of the skills, abilities, and tools needed to obtain a job on a management track in an organization of their choice.
- Understand the changes in theories about how managers should behave to motivate and control employees

Course Description

This course contains the Nature of Organizations, Introduction to Management, Management History and Current Thinking, Environmental Context of Management, Planning and Decision Making, Fundamentals of Organizing, Leadership and Motivation, Fundamentals of Influencing and Communication, Control and Quality Management, Managing in Global Arena, Management Trends and Scenario in Nepal.

Course Details

Unit 1: The Nature of Organizations

15 Hrs.

Concept of organization; Organizational goals: concept, purposes, and types; Features of effective organizational goals; Goal formulation: processes and approaches; Goal succession and displacement; Problems of goal formulation; Changing perspectives of organization.

Unit 2: Introduction to Management**10 Hrs.**

Management: definition, characteristics, functions, principles; Managerial hierarchy; Types of managers; Managerial skills and roles; Management Careers; Emerging challenges for management.

Unit 3: Management: History and Current Thinking**15Hrs.**

Classical Theory: introduction, contribution and limitation; Human relations and Behavioral science theories; System Theory; Decision Theory; Management Science Theory; Contingency Theory; Emerging Management Concepts: workforce diversity, outsourcing, knowledge management, learning organization.

Unit 4: Environmental Context of Management**16Hrs.**

Concept of Business Environment; Types of Business Environment: internal and external. Basic Components of External Environment: economic, socio – cultural, political, and technological; Environmental Scanning: concept and methods; SWOT analysis; Social Responsibility of Business: concept and approaches; Areas of Social Responsibility. Business Ethics: meaning and significance; Emerging Business Environment in Nepal.

Unit 5: Planning and Making Decisions**20Hrs.**

Planning: concept, types, process and importance; Elements of Decision Situation; Strategic Planning: fundamentals of strategic planning; Tactical Planning: comparing and coordinating strategic and tactical planning; The Planning and Levels of Management; Decision Making: definition and approaches, conditions of certainty and uncertainty. Management by Objectives (MBO): factors necessary for a successful MBO program; Decision Making: meaning, types and process; Group Decision Making: advantages and process.

Unit 6: Fundamentals of Organizing**18Hrs**

Organizing: concept, principles and process; Approaches to Organizing: classical, behavioral, contingency. Departmentalization: meaning and types; Delegation of Authority: meaning, steps, obstacles; Eliminating Obstacles to the Delegation Process; Centralization and Decentralization: meaning, advantages and disadvantages; Concept of Organic and Mechanistic Views of Organization;

Organization Architectures: vertical differentiation (tall versus flat hierarchies), horizontal differentiation (functional structure, multidivisional structure, geographic structure, and matrix structure); Modern Organizational Structures: team, network and 360 degree structure.

Unit 7: Leadership and Motivation**22 Hrs.**

Leadership: Concept, functions, styles; Approaches to Leadership: trait, behavioral, and situational; Leadership Today: transformational, coaching, entrepreneurial leadership; Leadership Situations and Decisions; Team Management; Conflict: meaning and types; Managing Conflicts in Organization; Motivation: concept and process; Theories of Motivation: need hierarchy and motivation-hygiene; Strategies for Motivating Employees;

Unit 9: Fundamental of Influencing and Communication

8 Hrs.

Influencing: concept and fundamentals; Influencing people; Influencing subsystem; Communication: concept, structure, and process; Types of Communication: formal and informal, Interpersonal and nonverbal communication in organization; Barriers to Effective Communication; Enhancing Effective Communication.

Unit 10: Control and Quality Management

MGT 221: Business Research Methods

Full Marks: 50

Pass Marks: 17.5

Lecture Hours: 75

Course Objective

The primary aim of this course is to introduce students to the principle of research methods used most frequently by business students. Basic knowledge of these methodological approaches is absolutely critical to the comprehension of academic understanding and comprehensive and critical writing which is an essence of business students. Therefore, the basic objective of this course is to provide knowledge and understanding of basic principles of business research methods.

Course Description

The course comprises introduction to research, different types of research, literature searching and frame working, research design issues, measurement, scaling, sampling, data collection and analysis, research proposal and report writing . This encompasses the overall understanding and application of appropriate research techniques, research statistics and presentation skills.

Learning Outcomes:

On the completion of this course, students will be able to:

- become acquainted with the scientific methodology in business domain.
- write a literature review that synthesizes and evaluates literature in a specific topic area to justify a research questions.
- apply appropriate research design and methods to address a specific research question and acknowledge the ethical implications of the research.
- understand how research activities can be used to address business decisions.
- develop, present and defend a research proposal and prepare a research report.

Course Details

Unit 1: Introduction

20 LHs

Meaning of research; Scientific research : features; Types of research: applied and basic; The Scientific research process; Approaches to research: Paradigm shifts – Positivist Versus interpretivist philosophies; Management research : concept, nature and value in business decision making; Applying scientific thinking to management problems; and Ethical concerns in research.

Qualitative research: concept, features, assumptions; Common practices in qualitative research; Methods of collecting and analyzing qualitative data; Role of computers in different phases of research; Qualitative data analysis: content, thematic and narrative.

Methods of qualitative research: case study, ethnography, grounded theory and phenomenological study (A short introduction only); Building trustworthiness and credibility in qualitative research; and Strength of qualitative research.

Unit 2: Literature Searching and Theoretical Framework**10 LHs**

Literature searching : concept, purposes and kinds; Writing a literature survey; Literature search through the internet; Relation of literature to research; Theoretical framework; Theory and research: research approaches – deductive and inductive; Research problem: identification of research problem in business, research questions; and Concept of hypothesis formulation.

Unit 3: Research Design**5 LHs**

Concept; Features; Types: descriptive, developmental, case studies, causal-comparative, experimental, cross-sectional and longitudinal; Basic principles of research design ; and Criteria of a good research design.

Unit 4: Measurement, Scaling and Sampling**12 LHs**

Variables and their types; Nature of measurement; Types of scales of measurement: nominal, ordinal, interval and ratio scales; Scale construction for attitude measurement; Scales commonly used in business research; Validity and reliability of measurement; Sources of measurement problems; Concept of population, sample and sampling; Concept of sample size; The sampling process; Types of sampling: probability and non-probability sampling; and Sampling and non- sampling errors.

Unit 5: Data Collection and Analysis**20 LHs**

Types of data: primary and secondary; Importance of secondary data in business research; Primary data: methods of collecting primary data; Questionnaires: design, components and principles of questionnaire writing; Pilot testing and questionnaire administration; The research interviews: face-to- face, telephone interviews and computer assisted interviewing; Observation: concept and methods: participative and non-participative; Data analysis: organizing and preparing data, presenting data in tables, graphs and charts; Pre-conditions and the use of statistical techniques: descriptive (Mean, Median, Mode and Standard Deviation) and inferential statistics: correlation analysis, statistical significance, basic forecasting tools, regression (concept of linear and non-linear); Concept and illustration of t-test : single mean and two means ; Chi-square test : goodness of fit and independence of attributes; and Statistical testing of hypothesis.

Unit 6: Research Proposal and Report Writing**8 LHs**

Topic selection; Research proposal : purpose, types and structure; Writing research reports : reporting process, contents of the research report and style of writing; Typing and layout of the research report; Citations and references by using APA format; and Essentials of a good research report.

Acc 250: Accounting for Banking

Course: Concentration
LHs: 150

Full Marks: 100
Pass Marks: 35

Course Objectives

The objectives of the course are to provide the students with the basic knowledge required to handle the accounting functions of banks. On completion of this course the students will be able to gain the knowledge of total banking accounting practices of the banks. The course further aims at providing knowledge required to analyze financial statements of banks.

Course Description

This course contains conceptual foundation of different banking activities. It also comprises banking rules and regulation, accounting for deposit, bills for collection, guarantee, letter of credit, remittance, credit and treasury management etc. Similarly, it focuses on new banking technologies, BASEL, anti-money laundering, financial statement and its analysis.

Course Details

Unit 1: Introduction

8 LHs

Concept of bank account, Rules and classifications of accounts; Accounting assumptions, principles and conventions; Evolution of banking industry, Development of banking industry in Nepal; Banks: Meaning, nature, objectives, importance and functions of banks; Types of Banks: Central Bank, Commercial Banks, Development Banks, Financial Institutions, Micro Finance Institutions and Co-operative Banks; Opportunities and Challenges of Nepalese Banking Sector; Legal provisions under Banking and Financial Institutions Act (BAFIA), 2063; Unified directives issued by Nepal Rastra Bank; Concept and importance of GAAP, Nepalese Accounting Standards (NAS), International Accounting Standards (IAS), Nepal Financial Reporting Standard (NFRS) and International Financial Reporting Standard (IFRS), Relative aspects of NAS, IAS, NFRS and IFRS

Unit 2: Accounting for Deposit

7 LHs

Account Opening, operations and closure of bank account; Concept and types of deposit: current, saving, time or fixed account, hybrid or flexi deposit, calls deposit account, margin account, foreign currency account, special foreign currency account; Process of opening accounts; Inter bank borrowing from other banks and short term borrowing from NRB; Substitutes for vouchers: pay in slip and its meaning; Cheques: meaning and types of cheques; Electronic cheque clearing (ECC); Service charges- concepts and accounting procedures

Unit 3: Accounting for Bills for Collection

7 LHs

Bills for collection: concept, types and necessity for banking business; Outward bills for collection (OBC): concept and types; Service charges and accounting records for OBC; Endorsement: meaning and accounting procedures; Procedures used in bills for collection;

Inward bills for collection (IBC): concept and importance, Document required for IBC; Service charges and accounting records for inward bills for collection; Debit note and required reversal entry; Outgoing debit advice for uncollected or dishonored bills

Unit 4: Accounting for Guarantee and Margin Deposit

7 LHs

Guarantee: Concept, needs and types of guarantee: Bid bond, Performance bond, Advance payment guarantee, Counter guarantee, Financial guarantee, Standby letter of credit, Bonded warehouse guarantee; Banker's liabilities and customer's liabilities toward guarantee issuance; Accounting treatment of guarantee issue (voucher and ledger); Margin deposit: concept, process and evaluation; Service charges and accounting treatment

Unit 5: Letter of Credit (LC)

7 LHs

Letter of credit: concept, needs and types of LC; Parties involved in LC; Documents in LC; Trade finance; International Chambers of Commerce and Universal Custom and Practices (UCP) for documenting credit; NRB regulations for LC; Accounting treatment

Unit 6: Accounting for Remittance

7 LHs

Remittance: concept, importance and types; Services rendered by remittance; Parties involved in remittance; Demand draft, accounting for advice received and un-received demand draft; Account payee draft; Books of original entry for advice received and un-received; Telegraphic transfer and mail transfer; Branch reconciliation

Unit 7: Accounting for Credit and Advances

9 LHs

Credit: Concepts, importance and types: Cash credit, Overdraft, Secured loan, Micro credit, and other loans: auto, home, credit card, education and social; Security: types and procedures/valuation of securities; Evaluation of feasibility study; Industry risk analysis and Business risk analysis (using six C's of credit); Accounting treatment of different types of credit; Loan processing charges, interest and commission and their accounting treatment; Collection and recovery of loans method applied and accounting treatment; Credit risk management; Credit creation

Unit 8: Accounting for Cash Transactions

7 LHs

Receiving cashier's counter cash book; Paying cashier's counter cash book; General cash books, day books and denomination books; Bank reconciliation

Unit 9: Accounting for Treasury Management

7 LHs

Concept of treasury management; Dimensions of treasury management; Market risk management; Liquidity management; Investment portfolio management; Foreign exchange risk management; Assets liability management; Maintenance of agency ledger (NOSTRO and VOSTRO)

Unit 10: Banking Technology Products

9 LHs

Banking software; Card operation; Tele banking; Mobile banking; Internet banking and e banking; SWIFT (society for worldwide interbank financial telecommunication); Branch less banking

Unit 11: Concept of BASEL Framework:

7 LHs

Concept and importance; Principles of capital measurement and capital standard

Unit 12: Anti Money Laundering (AML)

6 LHs

Concept, importance and AML Act; Know your customers (KYC)

Unit 13: Accounting for Decision Making

12 LHs

Capital Budgeting: Project evaluation on the basis of Discounted Pay-back Period, Net Present Value, Profitability Index and Internal Rate of Return; Cost Volume Profit Analysis for project evaluation

Unit 14: Preparation of Financial Statements

20 LHs

Concept and importance; General ledger: concept, needs and procedures of maintaining general ledgers, Comparison with commercial accounting, Daily trail balance: concept, needs and preparation; Transaction list verification and operational procedures; Statement of profit and loss and other comprehensive income (Income statement); Statement of financial position/balance sheet; Statement of cash flow statement; Statement of changes in equity; Disclosures required for Financial Statement

Unit 15: Financial Statements Analysis**20 LHs**

Concepts and importance; Ratio Analysis: concept, importance and limitations;
Types of ratios: Profitability ratios: Net interest income growth (NII growth), Interest yield, Net Spread, Operating profit growth; Shareholder ratios: Return on equity, Return on assets, Earning per share, Price earnings ratio, Market price per share, Dividend payout ratios; Liquidity ratios: Net liquid assets, Net liquidity ratios, Statutory liquidity ratio (SLR), Cash reserve ratio (CRR), Gap analysis;
Activity ratios: Cost of fund, Base rate, Cost to income ratio, Credit deposit ratio, Net interest margin, Non-funded income as a percentage of total operating income, Operating expenses ratio (interest to total operating expense, office operating expense to total operating expenses and HR expenses to total operating expenses) Staff efficiency (per employee income, per employee business i.e. deposit plus loan);
Gearing and Financial ratios: Total borrowing to shareholder fund, Total external liabilities to total assets, Total assets growth, Net worth growth; Cash Flow ratios:
Interest coverage ratio, Debt coverage ratio; Assets Quality ratios: Non-performing loans to total loans, Loan loss reserves to gross loan, Earning coverage to loan losses, Increase in loan loss reserve to gross income; Earning ratios: Net interest margin, Non-funded income expenses as a percentage of total operating expenses; Capital Adequacy ratios: Capital fund as a percentage of risk weighted assets

Project Work**10 LHs**

After the completion of fourth year concentration classes the students shall have to prepare and submit a project work in the area they have specialized. The subject teachers have to discuss with students on possible topics of the project work, availability and sources of literature, availability of data, data collection methods, appropriate tools of data analysis, etc. relevant to the subject.

ACC 256 Advance Cost and Management Accounting

Course: Concentration

Full Marks: 100

LHs: 150

Pass Marks: 35

Course Objectives:

This course is designed to familiarize the students to the basic concept of Advance Cost and Management Accounting. After completion of the course, students will be able to understand cost and management accounting information and analysis of the different situation of the business. Similarly, students will be able to take decisions after analyzing the different issues of the organizations.

Course Description

This course will enable students to understand the concept, tools and techniques of cost & management accounting. It covers fundamental of accounting, cost management and its techniques, activity based costing, cost-volume-profit analysis, planning, standard costing, responsibility accounting, master budgeting and decision making analysis etc.

Contents

Unit 1: Fundamental of Accounting

6 LHs

Concept, objectives, functions, scope and limitations of Cost and Management Accounting; Management Accounting versus Financial Accounting versus Cost Accounting. Users of accounting information; Professional ethics and social responsibility; Role of Cost and Management Accounting in decision-making.

Unit 2: Cost Behavior Analysis

8 LHs

Cost concept and classification; Segregation of semi-variable cost using two point method and regression method; Measurement of correlation, coefficient of determination, testing of significance with 't' value.

Unit 3: Accounting for Overhead Cost

12 LHs

Overhead cost distribution: Concept, primary & secondary distribution of overhead cost under direct method, Repeated distribution method, simultaneous equation method; Concept and ascertainment of total cost and profit under Traditional Costing Technique, limitations of Traditional Costing System; Activity Based costing: Concept, ascertainment of cost and profit under ABC technique, benefits and limitations of Activity Based Costing system. Relationship between Traditional and Activity Based Costing.

Unit 4: Income Measurement and Reporting

10 LHs

Income measurement under Variable and Absorption Costing; Causes of differences; Effect of inventories of work in progress and finished stock; Effect of FIFO and LIFO; Standard costs, actual costs and income statements; Income statements under uncertainty

Unit 5: Cost Volume Profit Analysis**12 LHs**

Concept, objectives, assumptions, limitations and techniques of Cost Volume Profit Analysis; Application of cost-volume-profit for breakeven analysis and profit planning for single and multiple products; Cost-volume-profit analysis under resource constraints: Allocation of single resource constraint, Allocation of multiple resource constraints using linear programming model

Unit 6: Short term Decision Making**10 LHs**

Concept, need and objectives of short term decisions in business; Cost concept in decision making: Relevant and irrelevant costs, avoidable and unavoidable costs, opportunity cost, incremental cost and sunk cost; Types of decisions: Drop or Continue, Special Offer/Order and Make or Buy

Unit 7: Budgeting and Controlling of Profit**30 LHs**

Concepts, objectives and importance of budgeting; Types of budget: Sales Budget, Production Budget, Material Budget, Merchandize Purchase Budget, Direct Labour Budget, Manufacturing Cost Budget, Selling and Administrative Budget, Cash Budget, Budgeted Income Statement and Balance Sheet. Preparation of Master Budget for manufacturing and non-manufacturing organizations.

Concept, significance and applications of Standard Costing; Types of Standards; Installation of Standard Costing System for Material, Labour, and Overhead; Variance Analysis for Materials and Labour; Accounting Treatment of Variances under certain and uncertain situations.

Unit 8: Flexible Budget and Performance Analysis**10 LHs**

Concept, need and characteristics of a flexible budget; Limitations of the Static Budget; Overhead variances: Capacity Variance, Efficiency Variance and Spending Variance; Performance reporting

Unit 9: Performance Measurement in Decentralization Organization**10 LHs**

Decentralization in organizations: Concept, merits and demerits of decentralization; Responsibility accounting: meaning, principles and benefits; Implementation process; Responsibility Centre of Controls: Cost Centre, Revenue Centre, Profit Centre and Investment Centers.

Unit 10: Capital Budgeting**22 LHs**

Concept, importance and need of Capital Budgeting; Types of investment proposals: Mutually Related Project, Mutually Exclusive Project, New Project, Replacement; Estimation of Cash Outflow: Net investment of new project, differential net investment for replacement and mutually exclusive projects; Annual Net Cash Inflow: Differential net cash flow for replacement of assets and net cash flow for new project; Net cash flow for final year; Methods of evaluation of investment proposal: Non-discounted Cash Flow Method: Payback Period and discounted Payback Period; Discounted Cash Flow Method: Net Present Value, Profitability Index, Internal Rate of Return; Decision regarding selection of project based on profitability

Unit 11: Advance Cost Management Techniques**10 LHs**

Need for cost management; Cost control and cost reduction; Balance Scorecard, Total Quality Management, Just in Time(JIT), Supply Chain Management, Enterprise Resource planning (ERP),

Theory of Constraints, Bench Marking, Business Process Re-engineering, Management Control System,
